

hydraulic calibration kit

HCK

Incorporates hydraulic pressure pump
PC6 PRO calibrator or indicator head
Any ranges from 1000 to 10000 psi (70 to 700 bar)
Accuracy: $\pm 0,025\%$ F.S.
Carrying case with foam.
NPL traceable certificate included
External pressure module as option

REV. 03 E 02/07

IN ORDER TO IMPROVE THEIR PRODUCTION, MESSRS. NUOVA FIMA RESERVE THE RIGHT TO THEMSELVES TO MAKE ALL THE MODIFICATIONS THAT THEY DEEM INDISPENSABLE AT ANY TIME. UPDATED DATA-SHEETS ARE AVAILABLE ON SITE: www.nuovafima.com

The HCK is a full lightweight and compact test laboratory, including the serie HTP hydraulic hand held pressure pump.
The HCK is intended for use as portable, on-site calibrator unit, used in close proximity with the equipment under test and without the need to remove the instruments from its parent system.
The HCK can assure an accurate and easy way of testing pressure transmitters, pressure switches, pressure relief valves, and pressure gauges.
It also performs reliable leaking tests.

Each HCK will include:

- Hydraulic hand held pump (see HTP data sheet).
- Pressure Calibrator (see PC6 PRO data sheet).
- Hydraulic hose, quick connection PN 1000
- Overpressure relief valve
- Rechargeable battery pack complete of charger.
- Set of BSP or NPT adaptors.
- Set of Nylon seals.
- Operating manual.
- NPL traceable certificate
- Test leads
- Strong plastic carrying case with foam

OPTIONS

SiCal software will remotely control the PC6 -PRO via RS232 connection cable, and allows calibration procedure.

IDOS module has been developed to work in conjunction with the It adds additional pressure ranges without incurring the full cost of extra calibrators.
